Switching to the “Trade” tab provides a quick glance of the stocks and allows students to add/remove stocks from the watch list (pink), sort the view by using the arrows next to various categories (orange), buy/sell stock (by either clicking on the right-side money symbol (purple/red), or by going into the stock (green)). Once a Stock Symbol is clicked, the view looks the same as before.

Open the three URLs located on the right-side of the student login slip of paper.

- Replace the (####) with the specific game’s code and then copy and paste the URL into other tabs and change the last word from “left”, to “main”, to “right”. In the example below, the game code is 1479. This code is unique to the game and will be different for each class period each visit.
  - <https://smc.ja.org/competition-boards/1479/left> (Leader Board)
  - <https://smc.ja.org/competition-boards/1479/main> (Stock Exchange Board)
  - <https://smc.ja.org/competition-boards/1479/right> (News/Alert Items)
- The tabs will be white with the game name showing (see example below) until the game is started.

## Frequently Asked Questions:

**Students can't get "logged out" in order to put in a new username/password:** JA recommends the students login with the same username on the same device throughout all three visits. However, if students share devices or use different logins throughout the visits, it's very difficult to get the system to fully log out. A few options:

- Clear browsing history: Ctrl + H is a shortcut.
- Use an incognito window to sign in.
- Use a different browser.
- Go to: [access.ja.org](https://access.ja.org) and "log out" by clicking on the arrow under the silhouette of a person. Then go back to [smc.ja.org](https://smc.ja.org) and "log out" again. This should fully log the former user out and allow you to use a new login.
- If all else fails, have the students in the group that can't get logged in divide up and join other teams.

**The students only see a white screen when they open the three URLs on the right-side of their login slip:** Have students replace the ##### with the code specific to the game they are playing.

**Does adding or deleting a stock from the watchlist buy/sell the stock:** No, it simply allows students to keep track of selected stocks at a glance.

**The dates showing on the game do not match the dates in which I need the game played:** Disregard all event dates.
